

care of it... notify blumenthal.

## M. Tomczyk NOTES

2 portable...2 handheld...few accessories...touch panel...mouse...few new games for C64...if we want, can ship new daisy wheel, two new printers, jvc monitor, and C64 with improved video circuit. That's all. Digitizer and track ball have been dropped from the list. Two new C64/VIC accessories...new

5 shelves

6 TV screen

Notes from Tony phone call

A month ago or 6 weeks, a cartridge for C64 like programmer's aid was sent to Bill Wade but Tony hasn't heard back from Wade.

CES Samples...

Appoint someone at California plant to whom all samples can be sent...or can be hand-carried. Load of stuff will be airfreighted within a week but customs office is closed sometime around Christmas time...anything after has to be handcarried by Tony, who is leaving for Calif. on the 29th. He doesn't want to carry load of samples with him so I have to appoint someone and telex name to Tony.

Name and title who can receive and safeguard items. He or she will certify shipment for CES. Every time Tony ships something he will notify me by telex. Fujiyama can be the person.

Tony will drop a few things from the list...hopefully, none will impact show planning.

Who is contact for patenting? Send any inquiry or questionnaire to Tony and he will take care of it...notify blumenthal.

2 portable...2 handheld...few accessories...touch panel...mouse...few new games for C64...if we want, can ship new daisy wheel, two new printers, jvc monitor, and C64 with improved video circuit. That's all. Digitizer and track ball have been dropped from the list. Two new C64/VIC accessories...new design/technology joystick and one conventional technology, new design paddle...coming.

Have to handcarry 2 portable computers but rest can be airfreighted, or Ira Velinsky will hand carry...he is leaving on 24 December, will meet Greg on 27...may handcarry few items. Customs closing date and ira's departure is close. Tony may have to handcarry a few items which will leave on the 29th.

Will use for the Osborne portable.

MAX...we are selling in Japan since end of November.

TOMY has 16K memory and 16 bit microprocessor...sales about half of MAX.

MAX in states...changed keyboard...no more memory.

Asked Yashi to speak to Julie Bauer to take care of Tony hotel accommodation...has not heard yet.

SPEECH TECHNOLOGY PRODUCT...4-5 modules with cartridge at show. good sound system.

DRUM ACCESSORY...Hyltin bringing half dozen units. Tom Kennedy bringing high speed low priced disk.
